CREATE YOUR  
PIVOTAL  
PRACTICE

## What is a Pivotal Practice?

A Pivotal Practice incorporates a multi-disciplinary approach to related areas of health care such as chiropractic, massage and physical therapy using a variety of PHS products and equipment. A diverse course of treatment options opens your practice to greater opportunities and allows you to successfully treat a wider selection of conditions and patients adding value to your practice.

## WHY CHOOSE PHS CHIROPRACTIC?

Since our launch in 2009, PHS Chiropractic, a brand of Pivotal Health Solutions, has become an industry leader in beautifully designed, configurable chiropractic tables, and accessories. Our products are built to help practices succeed. We are constantly moving forward, improving and striving to deliver unmatched value to our customers in product, service and performance.

### QUALITY • DIVERSITY • LEAD TIME

Our wide range of products are continually being updated to adapt to emerging needs to better serve the chiropractic community.

See page 20  
for more information  
on Creating Your  
Pivotal Practice

# FEATURED PRODUCTS

**As your practice grows and evolves, so do our products.** We strive to stand out and foster innovative thinking to solve problems and push the creative barriers of product selection, performance, and price. We want you to succeed and that is why we design and build products that give your practice value. By continually improving our product lines, we create more opportunities for our customers and for ourselves.

# ErgoStyle™ ES2000 GEN II

The ErgoStyle™ ES2000 Gen II takes the table you know one step further. With smooth electric elevation and easy upgrades, you can customize your table to your practice setting. Our patented ErgoStyle drop elevates across the entire cushion, rather than a single pin, allowing for improved accuracy and a smoother adjustment with less force-for less stress on you and your patient. It's also fully modular, allowing for easy modifications and upgrades in the field, both now or later as your techniques and practice grow.

# ErgoStyle™ FX

The ErgoStyle™ FX offers full, ultra-smooth counterbalanced flexion, distraction or circumduction, effortlessly meeting the core needs of your practice. Manual flexion/distraction is built right in, with infinitely variable electric spring tension so you can move the caudal section in any direction with just the touch of a finger. For added flexibility, the table also quietly elevates from its lowest height of 20" to its full height of 32". The fully modular design allows for upgrades now or in the future, including manual drops, auto-cocking drops, auto flexion, various headpieces, and many other options.

# ErgoWave

## ROLLER MASSAGE TABLE

ErgoWave Roller Massage.....EW9080

### Standard Features:

- Load Capacity: 350 lbs.
- Overall dimensions: 78"L x 25"W x 24"H
- Quick height adjustments: Gas spring makes roller height adjustments quick and easy
- Ultra quiet operation: high-quality motor for nearly silent operation without disturbing vibrations
- Built-in storage shelf
- Welded steel frame for stability
- 30-Minute timer
- 3" Roller height adjustment

The **ErgoWave Roller Massage Table** covers all areas of the spine isolating the lumbar, thoracic or cervical regions. Three independent rollers repeat every 13 seconds delivering a unique wave action that travels up the spine. A powerful yet nearly silent motor never disturbs your patient's relaxation and you can add a leg bolster or head pillow for added comfort.

# ATT-300

## INTERSEGMENTAL ROLLER MASSAGE TABLE

### Standard Features:

- Load capacity: 350 lbs.
- Overall dimensions: 22"W x 72"L x 25"H

- Travel indicator
- Automatic lowering device
- Adjustable massage pressure
- Vibration
- LED roller height indicator
- 30 Minute timer
- (1) Cervical bolster and (1) knee bolster (black)
- 4" Roller height adjustment
- Casters

**Available in wood!**  
ATT-300-W

# DOC Decompression TABLE

DOC Decompression .....E9011-B  
120V Targeting of Axial Rotation and Lateral Flexion

DOC Decompression Tower .....E9022  
120V Targeting of Axial Rotation and Lateral Flexion

## Standard Features:

- Lifting capacity: 350 lbs.
- Overall dimensions: 30"W x 77"L x 21"H
- Electric elevation range: 21-29"
- Lateral flexion positioning and axial rotation
- Cervical capture headpiece
- Traction belting system enhances restraint for optimal decompression
- User-defined treatment hold and relax times
- Real-time digital treatment tracking
- Speed control
- Pre-programmed lumbar and cervical decompression protocols
- Digital Command Center includes:
  - Specific vertebral targeting
  - Separate lumbar and cervical traction/decompression programming
  - Continuous readout and graphing of treatment parameters
  - Interactive color display
- Reference library - including patient setup and training materials

The **DOC Decompression Table** takes your chiropractic practice to the next level with its unique design and impressive list of standard features. The state-of-the-art digital command center controls specific vertebral targeting, including axial rotation and lateral flexion; correctly positions patients in antalgic posture; offers separate lumbar and cervical decompression programming; and delivers continuous readout and graphing of treatment protocols. The digital command center also controls table elevation and rear flexion, all at the push of a button. Patients may be treated in supine or prone positions and from various angles.

## "AWESOME TABLE AND SUPPORT ALL AROUND. HIGHLY RECOMMENDED."

After much research, talking to colleagues, and even attending a decompression seminar I decided on the DOC Decompression table because of the cost, ease, cost of maintenance, and table size. My favorite feature is that the table not only works in supine position, but also for prone treatment as well as rotation and/or lateral flexion so I can get the best clinical outcome. I'm very happy with how well it's performed for me over these past couple of months and patients are getting the fantastic results they need."

**-Harris Meyer, DC; East Bay Disc Centers**

The DOC Decompression Table offers optimal patient comfort and safety.

**Trusted  
all over  
the world**

- FDA Cleared
- EU Certified
- Licensed in Canada

Visit our website for complete table details.  
[www.PHSChiropractic.com](http://www.PHSChiropractic.com)

# Traction, Decompression and 3D Pull

## Supine Flexion and Extension

Great for patients suffering from conditions where flexion improves symptoms. The ideal position for older or heavier patients who can't tolerate prone decompression however benefit from extension with disc herniations or disc bulging.

## Prone Flexion and Extension

The ideal patient position for patients suffering from symptoms of Spinal Stenosis. The ideal patient position for younger patients who can tolerate prone positioning for symptoms of disc herniations and disc bulges.

## Lateral Flexion

Laterally flexing away from a disc herniation can dramatically help improve disc herniation outcomes. It is also effective for symptoms of analgic patients.

## Rotation

Effective patient positioning for analgic patients.

## WHAT ARE THE BENEFITS OF **LASER THERAPY?**

Visit our website for complete table details.  
[www.PHSChiropractic.com](http://www.PHSChiropractic.com)

The laser stimulates any part of the body that has been injured and regenerates the damaged tissue. It also softens scar tissue and quiets muscle spasm by calming down the local and central nervous system (brain and spinal cord). Laser also increases joint mobility, blocks and reduces inflammation.

**For more than 40 years, laser has been used worldwide for the treatment of pain, wound healing and musculoskeletal problems.**

## WHY APOLLO?

The Desktop Apollo has two channels to allow for the use of two probes.

### STANDARD FEATURES of the Desktop Apollo Laser:

- 9"W x 11.25"D x 4.5"H
- 2 Channel desktop unit with choice of probe
- Heavy-duty construction for office and clinic environments
- Probe holders on both sides of the unit that can accommodate two probes and both right and left handed practitioners
- Elevated face for easy viewing and control
- Two timers allow you to treat 2 patients at the same time

The Portable Apollo can be battery operated or plugged into a standard wall socket.

Only the 3000mW and  
500mW Cluster Point  
Probes work with Portable

### STANDARD FEATURES of the Portable Apollo Laser:

- 5"W x 9"D x 2.5"H
- Portable control unit with choice of probe
- Heavy-duty construction for office and clinic environments
- Weighing only 2.3 pounds, the Apollo laser is the lightest, most powerful portable laser you can buy
- Custom carrying case allows for easy travel to and from office and out in the field
- User replaceable battery

## SMART STEP WELLNESS MATS

Our line of high-performance Smart Step Wellness Mats deliver the comfortable support you need to help reduce stress, strain and fatigue while you work, play or exercise. Each mat features extra-durable construction, non-slip tops and bottoms, and an easy-to-clean, antimicrobial surface.

FMSTTOOLS

## FMST TOOLS

Fluid Motion Soft Tissue Tools are the soft tissue mobilization tools that can take myofascial manipulation and mobilization to the next level in your practice. The design of the two tools available enables you, the practitioner, to work over all surfaces of the body quickly and easily. The tools help reduce scar tissue problems from old injuries/surgeries and achieve greater results with pain control, joint and muscle flexibility.

CEBL-1001  
Omni Cervical Relief Pillow

## OMNI CERVICAL RELIEF PILLOW

This pillow uses an ergonomically contoured shape to comfortably "cradle" the head and neck, allowing total relaxation of neck, shoulder and back muscles.

## ROLLING STOOLS

Our rolling stools combine comfort with control thanks to a 3" deluxe seat cushion, a five-star base with heavy-duty casters and pneumatic controls that adjust seat height from 18-23".

# WHAT IS A PIVOTAL PRACTICE?

A Pivotal Practice incorporates a multi-disciplinary approach to related areas of health care such as chiropractic, massage and physical therapy using a variety of PHS products and equipment. A diverse course of treatment options opens your practice to greater opportunities and allows you to successfully treat a wider selection of conditions and patients adding value to your practice.

The crossover of products used in different healthcare markets is consistent with current healthcare trends (ex. A chiropractic table used on the sidelines of a football game) and we lead the charge. We develop our products to grow with evolving health care markets, and we take pride in providing practitioners with the tools they need to find solutions for the customers they serve.

## Providing innovative furniture and equipment to the markets we serve.

Pivotal Health Solutions offers a wide selection of innovative products to enhance your overall practice. Our products are designed to help your practice succeed from every aspect of patient comfort, ease of use, durability, practitioner convenience, versatility and successful patient outcomes. Other brands include:

### Workspace Reinvented.

How you work is just as important as the work you do. REV.247 provides creative products and options to help reinvent your workspace by focusing on how, where, and when you work to optimize your unique work habits. It's all about getting things done.

## ARE SAYING...

### Dr. Amy McKee

McKee Chiropractic & Wellness

"I absolutely love my **ErgoStyle HYLO** table. It is perfect for all my pregnant patients because of the break aways and it allows for more room with the pregnancy pillows. It has become the preferred adjusting table of all my patients. I love how quiet it is, the smoothness of the drops and the elevation feature that saves my back when adjusting the cervical spine, doing cranial work and round ligament release. I can't wait to get a second one."

### Drs. Brad & Christina Woodle

Advanced Sports and Family  
Chiropractic & Acupuncture

"We have been very impressed with the quality of the **ES2000**, and most importantly in 2022, the speed at which they are able to get them custom made for our 7 offices!"

### Dr. Chad Bryant

Bryant Neck and Back Pain Center

"The **FX** auto flexion table is a huge upgrade. It has a manual feature that allows the doctor to have great control over how fast and far the table moves. It also has an auto flexion distraction feature that allows the doctor more freedom to manipulate the patient. With several drop pieces this is the perfect table. I would highly recommend this to everyone looking to upgrade their practice."

### Brooke Maher

RegenMedix LLC

"I would highly recommend the **DOC Decompression Table**. I was amazed at the immediate relief I felt when getting on a DOC Decompression Table. This is an innovative solution to treat back/neck pain that I have never experienced before. The main benefit was the release of pressure I felt throughout the process. I would highly recommend the DOC Decompression Table to any clinician looking to add a cash service to help patients with herniated, bulging or degenerative discs!"

### Dr. Mark Koldenhoven

Kooistra Chiropractic Clinic

"Our clinic just bought a second **Apollo Portable Laser** due to the patient demand for it. I purchased the first one about 10 years ago and it has been by far the best clinic purchase from a business and patient standpoint. First, I would not hesitate to purchase it due to the immediate ROI and its durability. Most importantly, as a practitioner, I have the confidence to recommend it to patients for their conditions because it works. Besides helping with the typical musculoskeletal conditions, we have patients that have a history of surgeries, sensitivities or extreme pain and the laser is a key component to help these patients. It has also been a phenomenal source of referrals. We have received countless referrals from satisfied patients looking for the same relief they got and cutting edge technology. Purchase a laser for your patients!"
